

WEEK BEGINNING:

Year 5 trip to All Things Wild by Megan Smith.

On 21st, 22nd and 23rd of March, all of Year 5, including the teachers, visited All Things Wild in Honeybourne. It was amazing; everybody went which was a bonus. We all enjoyed it and hope to again soon. Here are a few things we did.

First, Chloe from All Things Wild taught us a bit about habitats and adaptations. It was super fun. We had to compare different kinds of beaks and match them with the food that the bird would eat. We did this by using different equipment that acted like beaks to try to pick up different things such as pasta, lentils and paper. It was really interesting – thank you Chloe!

The next thing we did was animal handling. We all made a new friend called Charlie who is a blue and yellow macaw (which is a parrot). He kept talking to us

‘Hello,’ announced Charlie.

‘Hi,’ replied Tom and Carys.

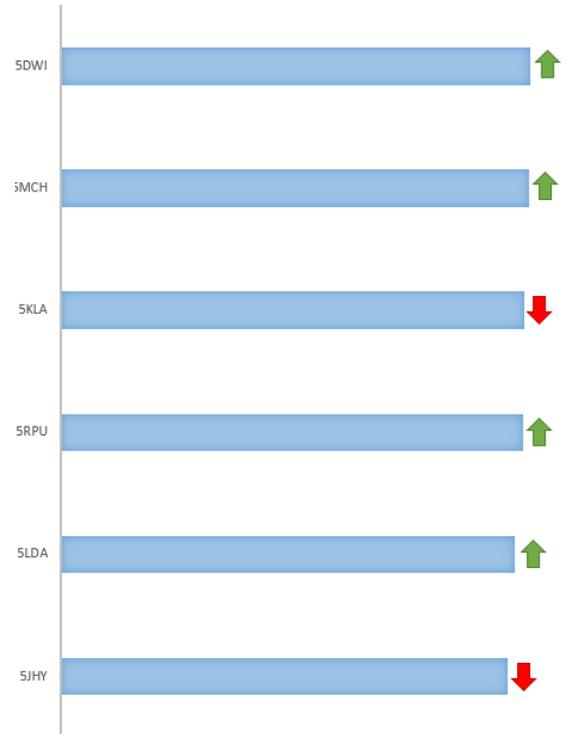

Sadly, Charlie cannot fly but all of the staff take good care of him. We also met a chinchilla who was called Frostie because she had a silvery coat and they are usually dark. She was a large cotton ball that felt like a blanket. Last but not least, we met an armadillo called Malteaser. He was a three- banded armadillo with a shell like a turtle. They were all very cute. Later, some of us got to hold rabbits and guinea pigs – they were so soft!

Finally, we did the Dino Quiz. Miss Davies wrote a quiz for us to complete while we walked around the Dino Trail – we stepped through time to discover how dinosaurs used to live. It was very interesting learning about different species of dinosaurs. Everyone who participated received a little dinosaur keyring.

We also had the opportunity to go into the reptile house and see some of their other animal such as racoons, squirrel monkeys and meerkats.

Thank you to Miss Davies and the Year 5 teachers for organising this outstanding day out for us. Also a huge thank you to All Things Wilds for making our day the best it could be!!!

ATTENDANCE

Well done 5DWI!
