

WEEK BEGINNING:

Year 6 have settled back into routines quickly and have already started producing some fabulous work. Our school value for this half term is respect, which was introduced by the CREW in assembly on Monday. All of the classes in Year 6 have been exploring this and are being encouraged to respect everyone and everything around school and the outside community.

## ATTENDANCE

## Maths

Year 6 have been reminding themselves of their arithmetic skills in the first few days back after half term. The plan for this half term is to teach to the gaps in the assessments from last half term. This week, we have started to study measures and solve multi step problems in relation to these. Maths interventions have begun with many children having extra sessions with specific topics of maths that they struggle with. This will continue throughout this half term.

## English

Excitement has been felt throughout Year 6 as they have begun to study the story of the Titanic. The children have just started reading the story of the building of it and who sailed aboard the luxury liner towards America. They have explored a variety of different vocabulary and have imagined what it would be like to be a passenger on the Titanic (before it sank!). They will be writing a recount of how they have come to be on the ship next week.

KS2 are working on their teamwork skills this half term. KS3 already have these skills built into all subjects and Miss Darby shared some of their excellent work with the KS2 staff so they can build it into all lessons. Teamwork is one of the most important skills that any child can learn as it is a key skill that employers look for in applicants, so if the children begin to develop the skills now, they will be able to show those skills easily in the future.

WELL DONE 6LD!
