

Dear Parent/Carer,

Humanutopia – 5Live – Monday 10th December 2018

On Monday 10th December, a company called 'humanutopia' will be visiting the school to lead a session with Year 5 called '5live'. The whole year group will be off timetable on this day, completing three different sessions in the hall.

The three sessions are:

- 1) The concept of harmony and understanding the values of honesty, awareness and responsibility
- 2) Qualities, qualifications and creating a new set of skills
- 3) Changes they need to make to take control of their future

We believe that these are key qualities and skills that they will need throughout their school life at Ipsley and will set them good foundations for their futures. This is also a great opportunity for them to begin talking and getting to know different children within the year group.

There will be follow up activities that the children will complete with their class teacher later in the week.

If you have any questions or queries, please contact Miss Davies.

Thank you for your continued support,

Miss L Davies
Year 5 Standards Leader
