Dear Parents/Carers

We have sent some work home with your child for the Easter holidays. It is called '10 in 10' homework as it is supposed to take just 10 minutes per day over the holidays (Mon -Fri) for each subject – so 30 minutes a day in total.

Children can do this work by themselves, with family members or friends. Questions don't have to be done in test conditions so feel free to let children discuss their answers with you. We have included the answers so children can see how they are getting on. If any questions are difficult, pupils can look at the answers and try to work out how to get there.

This homework is in line with feedback received from parents from previous years. We must stress that it is **optional** and designed to ensure that pupils are keeping their learning ticking over during the break: they can choose to do some, all or none of the work.

Please prioritise family time, fresh air and fun over this homework – we know our children need a good break and this work must not get in the way of that!

Have a wonderful Easter and a restful break.

The Year 6 Team
